Dr. Joshua Lederberg
University of Wisconsin
Madison, Wisconsin

Dear Dr. Lederberg:

The research project outlined in the enclosed application is being prepared for review by the Morphology and Genetics Study Section and the appropriate National Advisory Council. In reviewing this application, a member of the Study Section has suggested that your opinion be obtained, regarding the scientific merits of the project and the qualifications of the investigator. Your comment, I am sure, will be of considerable assistance to the Study Section members in their formulation of a recommendation concerning the desirability of supporting this project.

All applications for research grants, as you know, except in special circumstances, are circulated only to the members of the Study Sections and Councils who review the applications, and any information or opinion that you would be willing to furnish will be for their use only.

I hope you will find it possible to favor us with your advice in this matter. Will you please send three carbon copies of your reply along with your original letter, since these will greatly facilitate the processing of this application. Because of the nature of research grant applications, I would appreciate it if you would return the enclosed copy. A self-addressed envelope is enclosed for your convenience.

Sincerely yours,

Charles P. Hutterer, Ph.D.
Executive Secretary
Morphology & Genetics Study Section
Division of Research Grants
